Guidelines for Fire Hazard Reduction and Firebreaks

Townsites

Properties within the townsites of Perenjori and Latham are required to comply with the following:

Where the area of land is less than 3,000m², the property must be cleared, mowed or slashed to a **maximum** height of 7.5cm of all flammable material.

Where the area of the land is 3,000m² or more, a firebreak must be provided not less than 3m in width inside and along the whole of the external boundaries of properties.

All flammable material must be cleared 3m in distance from all buildings or haystacks situated on the land.

Barbeques and Incinerators

Solid fuel barbeques and incinerators are **prohibited** on days of **High Fire Danger** or above. Gas and electric barbeques are permitted.

Fuel Storage Sites

All grass and similar flammable material are to be cleared from such places where fuel or fuel storage containers are stored/located.

Rural Land

Firebreaks must be provided not less than 3m in width inside and along the whole of the external boundaries of the properties owned or occupied; where this is not practicable the firebreaks must be provided as near as possible to, and within, such boundaries.

All flammable material must be removed from an area of 3m in width immediately surrounding a farm building, an unattended electric motor site, or an unattended fuel operator motor site.

Firebreaks must be at least 3m in width completely surrounding and not more than 20m from the perimeter of any building, group of buildings or haystacks.

Tree plantations

Plantations larger than 3 hectares, are to construct a 10m wide mineral earth firebreak with a vertical clearance of 4m high, clear of all inflammable material immediately surrounding the plantation.

Plantations larger than 10 hectares are to comply with the Guidelines for Plantation Fire Protection by DFES and the Code of Practice for Timber Plantations in Western Australia.

Properties will be inspected to ensure compliance with requirements.

Failing to comply with this Notice can result in significant fines and penalties. The person in default is also liable, whether prosecuted or not, to pay the cost of performing the work as required in this Notice, if not carried out by 15 September 2023.

Harvesting Operations

A separate firefighting appliance is required to be present in any paddock being harvested, churning, raking stubble, straw baling and associated allied activities during restricted and prohibited periods. The firefighting unit must be in a state of readiness and have a minimum capacity of 400 litres of water, a powered pump and hose. The farm firefighting unit should be parked on bare ground in or near the harvesting or working area.

A Harvesting and Movement Ban and Use of Internal Combustion Engines (except for the watering and movement of stock) will be imposed when the actual weather conditions reach a Fire Behaviour Index (FBI) rating of Forty (40) or above at the weather stations of two (2) Bush Fire Control Officers. All such bans are at the discretion of the Chief Bush Fire Control Officer or a duly appointed person.

This Order allows for provision of firebreaks in situations other than immediately with property boundaries subject to approval. The Chief Bush Fire Control Officer and appointed Fire Control Officers have been authorised to act for Council in this matter.

Harvest and Movement Bans

Harvest and Movement Bans will be advertised on the Shire of Perenjori 's Website. Visit www.Perenjori.wa.gov.au for more information.

Mobile numbers registered on the Shire of Perenjori 's Harvest and Movement Ban text messaging service will also be sent a text.

It is your responsibility to check whether a Harvest and Movement Ban has been imposed, please call the Shire Office on 08 99730100.

To add or remove your mobile number from the Shire of Perenjori 's Harvest and Movement Ban text message service, please contact the Shire on 08 9973 0100 or reception@perenjori.wa.gov.au

Harvesting operations are **not** permitted on **Christmas, Boxing Day or New Years Day.**
