REPORT DATE:	4TH JULY 2016
ATTACHMENTS	RATE SPREADSHEET

Executive Summary

This item recommends the Council adopts its rates which are to be used in the formation of the 2016/2017 budget and considers any discounts that are to apply for early payment of rates.

Background

In April of 2016 the Council agreed to consider the application of a 5% across the board rate increase. This was agreed in order to allow advertising to proceed for the Shire's differential rates; the advertising is required by the Local Government Act.

All differential rates require advertising and when one rate in any category is more than double one or more rates in the same category Ministerial approval is required before those differential rates can be applied (s6.33(3)). The application for this approval was forwarded to the Minister in accordance with the Act.

It is common practice to decide on a possible high rate increase prior to advertising as it allows Councils time to ascertain their financial position for the coming financial year.

On this basis advertising proceeded and as there were no objections of submissions to the proposed rates, a submission was made to the Minister.

The Minister, through the Department of Local Government has declined the submission enforcing Section 6.36(3) of the Act which states that "*the advertised rates are to apply based on an estimate of the budget deficiency.*" This means that a Council is required to set its rate structure and rate income after the budget position is known and the rate income accounts for the projected deficit provided the rates raised comply with s6.34 of the Act (rate income not to exceed 110% of the deficit or be less than 90% of the deficit).

With the DLG enforcing s6.36(3) of the Act, local governments will have to revise what has been common practice and adopt rates earlier in the year. Generally local governments have some idea of what rate increases they need to apply in any given year but prefer to wait until they have a more clear picture of the end-of-year financial position, even after taking into account the Strategic Plan and Long Term Financial Plan.

Therefore if a local government wishes to advertise its differential rates from 1st May each year, it needs to determine its financial position and its rate structure in March / April so that any differential

rates can be advertised from 1st May. That assumes the Council wants the budget adopted in July and rates issued shortly thereafter.

It has also been made clear by the DLG that the common practice of advertising differential rates at a high level and later adopting a rate lower than that advertised is not acceptable. This is seen to conflict with s6.32(1)(a) of the Act which states that “When adopting the annual budget, a local government

- (a) in order to make up the budget deficiency, is to impose* a general rate on rateable land within its district, which rate may be imposed either — (i) uniformly; or
(ii) differentially”

The Perenjori Council (like most others) advertises differential rates early due to the 21 day advertising period and to allow for any further period of delay due to the requirement to consider objections or submissions. Any lengthy delay can result in rates not being issued until very late July or even August which creates the possibility of a cash shortfall at the start of each financial year. As stated above the DLG is recommending Councils now adopt their rates in March / April if they wish to commence early May advertising of differential rates.

For these reasons the DLG has asked the Shire to resubmit its application to the Minister for differential rates approval having resolved what the differential rates will be and what the rate in the dollar will be for the 2016/2017 financial year.

The rates that are adopted from this item are the rates that will be submitted to the DLG and should this require amendment at a later date, a new process of advertising and Ministerial approval will be required – for the differential rates.

On the positive side in consideration of this application, the DLG will consider the Shire’s loss of income due to decreased mining lease valuations, leases disposed of and the freeze on mining rates the Council applied in 2015/2016.

As required by the Act a budget has been prepared on the basis of a 3% increase across all categories except for Minimum Rates UV Mining being reduced from \$406 to \$325, in line with all other minimum rates.

3% OVERALL INCREASE

Line	Code		Total Props	UV Value	GRV Value	Min Amt	UV %	GRV %	Calculated Rates	Props on Min	Actual Rates to Raise
1	00	NON RATEABLE	75	\$ -	\$ 68,900				\$ -		\$ -

9	09	OTHER TOWN GRV - MIN CONC	9	\$ -	\$ 650	319.00		7.9114	\$ 51	9	\$ 2,871
10	99								\$ 2,765,355		\$ 2,783,882

DISCOUNTS

This item also seeks a Council decision on what discounts will apply in the 2016/2017 financial year as will affect the budget bottom line and could have some positive influence on the Council's differential rating application.

The budget has been prepared based on informal Council discussion on what discounts may be applied. Those changes are the discarding of the 5% second discount and the existing 10% discount being reduced from 10% to 7%.

The draft budget has been prepared on these bases with these amendments to the existing discounts but does not commit the Council to adopting these recommended amendments as this remains a decision of the Council.

6.32(1)(a)

6.33(3)

6.34

6.36(3)

Policy Implications

Policy 4003 – Rates Collection, Payments & Discounts

Financial Implications

This item will determine the Shire's rate income for the 2016/2017 financial year if the differential rates are approved by the Minister

Strategic Implications

Area 2: Industry and Business Development – Our Economy

Goal: Fostering and maximising growth across the economy, embracing opportunities for diversifying and strengthening our economic base.

Area 5: Investing in Councils Capacity – Our Leadership

Goal: Strengthen the Shire's position as an innovative, independent local Government providing excellence in all areas of governance, management and leadership.

Risk Management

The rate income projected from the outcome of this item will determine the sound financial management of the Shire for the next 12 months. The risk of under rating is the reduced ability to carry out the projected works.

If the outcome is considered carefully the Council limits the risk of financial instability and uncertainty.

Applying any excessive increases in rates could cause community discontent or complaints from the community.

Comment

I am assured that if the Council adopts its rates at the Special Meeting and provided all other provisions are compliant, our application for the differential rates will be evaluated quite quickly.

By determining the rates in this item the administration has more time to prepare the statutory budget for adoption by the Council at its July Ordinary Meeting.

Voting Requirements – Absolute Majority**Officers Recommendation – Item 16072.1**

1. That in accordance with the projected outcomes of the draft 2016/2017 budget the Council adopts the following rates:

UV General (Rural) = 2.0024 cents in the dollar

UV Mining = 34.3112

GRV General = 7.9114

GRV Mining = 7.9114

UV Minimum General = \$319

UV Minimum Mining = \$319

GRV Minimum = \$319

GRV Minimum Mining = \$319

2. That the Council authorises the CEO to apply to the Minister for Local Government for the approval of the differential rates for UV General (Rural) and UV Mining as above.

3. That the Council in accordance with s6.46 of the Local Government Act 1995 authorises the CEO to apply a discount of 7% to ratepayers who have paid their rates in full, including, waste and service charges and any arrears by the due date on the rate notice.

16073 OTHER BUSINESS**16073.1 MOTIONS OF WHICH DUE NOTICE HAVE BEEN GIVEN****16073.2 QUESTIONS BY MEMBERS OF WHICH DUE NOTICE HAS BEEN GIVEN****16073.3 URGENT BUSINESS APPROVED BY THE PERSON PRESIDING OR BY DECISION**

16073.4 MATTERS BEHIND CLOSED DOORS**16074.4.1 CONFIDENTIAL ITEM – NEW HOUSING OPPORTUNITY**
