

School Readiness Program

Our School Readiness program aims to prepare every child for the challenges that they might face when starting school. All the activities are designed for children aged 3-4 years old and will allow them to learn through play and fun.

Through a variety of intentional teaching activities, working individually with every child, we make sure that they receive a solid base in literacy, numeracy, science and gross motor skills just before they start school. This will increase children's confidence as they take their first steps in the journey called formal education. And it is well known that confidence is the key to success.

School Holiday Program

"The best memories are the ones that make our hearts giggle", and our Centre is the place to be during the school holidays when it comes to making memories that last a life time.

The School Holiday Program is designed to capture every child's interest and offer a variety of engaging experiences that promote a holistic approach to child's learning through play. A rainbow of fun, laughter and happiness including a stimulation of creativity, imagination and craftsmanship. At the end of every day the child takes the benefits of childhood friendships and meaningful play as a present that lasts a life time.

Daily Program at PECC

Our Daily Program is a core element at our centre and one which all educators at PECC take pride in. The key to the program is flexibility and it essentially then emerges from children's ideas, thoughts and observations. Educators guide, nurture and encourage children's learning through setting inviting environments which allow children to discover and explore at their own pace. Each child's learning journey is communicated through various forms of documentation in which we encourage families and children to be part of.

Rhyme time

"Flying on the wings of Books" is our motto when it comes to the Rhyme Time program which PECC organises and delivers not only for the children attending our centre but for all young children in the wider community.

We offer children the dreams and realities hidden behind the words that will allow them to fall in love in the endless fun that libraries hide. The words will guide them in life, helping them when they are at a crossroad, or when at the start of a new challenge. The treasures that the books keep can only be gained by the open minded, by the dreamers and the willing.

Rhyme Time promises lots of fun, going on different adventures and learning along the way. Rhyme Time helps children find the hidden wealth that can only be experienced when we flick through the pages of books.
