Summary

This item seeks Council's decision on the request for support of a section of Perenjori Rothsay Road being added to the AMMS Level 3 Mass (23.5t for tri axle groups).

Background

The Shire of Perenjori has received a request from Main Roads on behalf of Saltbush Contracting for support/ comments on a section of Perenjori Rothsay Road SLK 0.00- 2.82 being added to the AMMS Level 3 Mass (23.5t for tri axle groups) network.

This would enable Saltbush Contracting to operate the combination of vehicle from the Rothsay Mine site through Perenjori to access their processing plant at Deflector, North of Morawa. The rest of Perenjori Rothsay Road is already under this network due to previous operations by Mt Gibson to the rail siding. Warriedar Coppermine Road and Boonerong Road are also under this network. These roads have the condition that written approval must be carried by operators from the road asset owner and that no operation when road is visibly wet without the road owners written approval. The Wubin Mullewa Road is currently PBSTD2B.3 so approval from Main Roads would also be needed to allow the requested combination to access the route.

The Shire of Morawa has also been approached regarding the AMMS Level 3 Mass (23.5t for tri axle group) and has indicated that they would not support the combination on their roads.

Strategic Community Plan

Area 1 Infrastructure and Natural Assets- Our Natural and Built Environment.

Goal: A Community that develops and lives sustainably in a thriving natural quality- built environment, which meets and maintains current and future community needs.

Officer Comment

The original agreement between the Shire of Perenjori and Egan Street Rothsay Pty Ltd stipulates that the combination approved for the haulage is RAV 7 including concessional loading. If approval is being sought for a change of combination, then an amendment to agreement would need to be negotiated.

Other conditions should be added to the roads including but not limited to a speed restriction of 80km/hr.

If approval is given for the requested RAV combination to access the Shire's roads then we will be in a position where if the existing conditions which we have on a majority of our roads which is the CA07- Written approval from the road asset owner must be carried by operators is removed then the Shire would have no control over these vehicles using the roads.

OFFICER RECOMMENDATION

Council Resolution Number:

Moved:

Seconded:

That Council:

- 1. Not support the application from Saltbush Contracting and Egan Street Rothsay Pty Ltd (Silverlake Resources) for AMMS Level 3 Mass (23.5t for tri axle groups) to access the section of Perenjori Rothsay Road- SLK 0.00- 2.82**

OR

Support the application from Saltbush Contracting and Egan Street Rothsay Pty Ltd (Silverlake Resources) for the AMMS Level 3 Mass (23.5t for tri axle groups) to access the section of Perenjori Rothsay Road SLK 0.00- 2.82 with conditions attached that written approval from the road asset owner must be carried by operators at all times.

- 2. If approval is granted, that Saltbush Contracting and Egan Street Rothsay Pty Ltd (Silverlake Resources) be contacted to discuss the variation/ amendment to the original agreement which had allowed for RAV 7 combinations only to use the routes for their operations and negotiate the changes to the agreement including a possible financial contribution as decided by Council.**

Motion put and carried / lost

8. Closure of Meeting:

The Presiding member to declare the meeting closed and thank those in attendance.
